Snowdonian Cheddar - A mature rich cheddar with savoury aroma and a smooth, creamy consistency. It has a gentle, nutty texture and subtle smoky hues. There is the occasional crunchy crystals which is a highly desirable characteristic of the aged cheeses!

Perl Las - This cheese crosses the boundary of all blue cheese lovers. It starts off with a creamy subtle blue cheese taste on the front of the palate, then an earthiness comes through and it finishes with a bit of bite but not too overpowering.

Smoked Applewood - Lovely medium strength Cheddar with a golden-amber appearance and a gentle smoked flavour that doesn't overwhelm. Applewood is not actually smoked but has smoke flavouring added to it.

Pant-Ys-Gwan Goat's Cheese - Beautifully fresh, soft and creamy cheese with a light saltiness and just a hint of sourness sometimes associated with the acidity of lemon.

Perl Wen - The "White Pearl" is an organic, unique cross between Brie and Caerphilly, with a soft centre, a fresh citrus flavour and a hint of salt.

Golden Cenarth - Organic rind semi-soft cheese with springy but smooth texture. It is washed in cider which gives it a nutty, slightly pungy flavour. It has a natural mould on the outer rind-absolutely fine to eat!
